

HAZARD LABEL INFORMATION

(Includes the following products: untreated wood, [ProWood Micro](#), [ProWood Micro CA](#), [ProWood ACQ](#), [ProWood Borate](#), [ProWood CCA](#))

Precautions for Wood Products:

- When cutting, sanding, or machining, avoid inhalation, wear safety goggles, and use exhaust ventilation if in an enclosed area.
- Use puncture-resistant gloves when handling to avoid splinters or skin irritation. Observe good hygiene practices.

Precautions for preserved pressure-treated wood products (consult this placard and/or end tag for chemical information):

- Do not burn preserved wood in open fires, stoves, fireplaces, or residential boilers.
- Do not use preserved wood as mulch. Some preservatives may migrate to soil and water and may dislodge upon contact with skin.

First Aid:

- If excessive dusts are inhaled, remove to fresh air.
- For eye contact, flush eyes with water for at least 15 minutes.
- For skin irritation, wash with soap and water for at least 15 minutes.
- If symptoms persist, consult a physician.

WARNING: Drilling, sawing, sanding, or machining wood products can expose you to wood dust, a substance known to the State of California to cause cancer. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection. For more information go to www.P65Warnings.ca.gov/wood

- This product may cause irritation to eyes, skin, and upper respiratory tract.
- Wood dust may form an explosive mixture with air.
