COLOR TREATED

**ENVY**

**HAS A NEW COLOR.**

**NEVER SETTLE.**

# CUTTING-EDGE COLOR.

**PROWOOD COLOR TREATED IS AHEAD OF THE GAME.**

We use the latest technology to achieve the best quality color.

Treated with an EPA-registered preservative system, it's color-infused  
by driving pigment deep into the wood fibers.

The results? Long-lasting color. **GUARANTEED.**

CEDAR-TONE

REDWOOD-TONE

WALNUT-TONE

*\*Color options differ by market.*

### LOOKS YOU WANT

It's color-treated lumber that allows the unique, natural beauty of the wood to remain visible. It's the look you want without the work of staining. We call that a win-win.

### FUNCTION YOU NEED

Prevents termite attacks and fungal decay. And we give you a **lifetime limited warranty** to prove it. Another perk—Color Treated is compatible with aluminum building materials, meaning it's less corrosive to fasteners.

### DURABILITY YOU DEMAND

*Horizontal applications:  
2-year color assurance  
Vertical applications:  
5-year color assurance*

You need peace of mind. That's why we give you the industry's first **2-year and 5-year color assurance limited warranties**. Tests have shown that cedar and redwood will fade while Color Treated prevails. Envoy truly does have a new color.

**HANDS DOWN, COLOR TREATED OUTLASTS CEDAR AND REDWOOD.**
